2.1 Summary

The feedback about the SNOMED CT International Beta Release that was received during the Beta period, was used to update the International edition release package ready for the Member release.

Details of these “Known Issues” can be found in section 3.1 of the Release Notes that are published alongside the January 2020 International edition Member release package.

The feedback that resulted in changes being made to the Member Release package for the January 2020 International edition are detailed below in section 2.2. SNOMED International thanks Members who contributed feedback.
