

Welcome to IHTSDO,
International Health Terminology
Standards Development Organisation

Nursing Special Interest Group

Points of Interest

- Community of practice for nursing
- Consults on relevant nursing SNOMED CT content development.

The IHTSDO Nursing SIG

The IHTSDO Nursing Special Interest Group is a community of practice for the nursing profession, ensuring international nursing participation in advising the IHTSDO on the development, validation, uptake and implementation of SNOMED CT and related products. The SIG works with the International Council of Nurses and other partners to advance terminology harmonization and foster interoperability in health information systems.

Nursing SIG

moores@nhs.net

Nursing SIG Scope

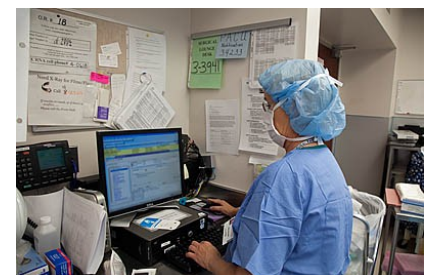

- Promotes SNOMED CT within nursing, including activities such as the publication of papers and giving presentations in collaboration with the IHTSDO
- Contributes to information about requirements and usage from the nursing communities
- Participates in nursing content development and review
- Practical Implementation advice and guidance related to nursing
- Collaboration with the International Counsel of Nursing regarding nursing content

Principles:

- Participation in the SIG does not represent the IHTSDO
- The SIG operates in accordance with the Articles of Association and all relevant IHTSDO regulations, policies and procedures.

Participation:

- Participation is welcomed subject to acceptance of the conditions of the IHTSDO participation agreement see: www.ihtsdo.org/participation_conditions.pdf
