1 Introduction

1.1 Background

This document is to provide visibility to the Members of relevant feedback received during the Beta Release period, and any actions taken as a result of this feedback.

1.2 Purpose

This document provides information related to differences between the files distributed as part of the July 2016 Beta Release of the SNOMED CT International edition, and the June 30th Members' distribution of the July 2016 SNOMED CT International edition.

Please contact IHTSDO at support@ihtsdo.org with any questions related to the contents of this document.

1.3 Scope

This document relates exclusively to the July 2016 International Edition, and not any prior Releases.

1.4 Audience

This document is intended for use by IHTSDO Member National Release Centres only, and should not be distributed to Affiliate licensees without permission from IHTSDO.

2 Notes for the July 2016 Member Release

2.1 Summary

The feedback about the July 2016 SNOMED CT International Beta Release that was received during the Beta period – June 2nd through June 17th, was used to update the International edition release package ready for the Member release on 30th June 2016.

There was some feedback provided that, for a variety of reasons, didn't result in changes to the July release, but instead will be resolved as part of the next editing cycle, ready for publication in future releases. Details of these "Known Issues" can be found in the Release Notes that are contained within the July 2016 International edition Member release package.

The feedback that resulted in changes being made to the Member release package for the July 2016 International edition are detailed below in section 2.2.

IHTSDO thanks Members who contributed feedback.

2.2 Items Reported in this Release that were resolved

The following items were resolved in the July 2016 International Release:

Key	Summary	Description	P	Reporting Entity	Reporting Stage	Resolved
ISRS-39	Duplicates in the Association Refset	<p>After having created the new RVF assertions to capture the issue reported in ISRS35, the RVF report now shows new issues found:</p> <p>https://rvf.ihtsdotools.org/api/v1/result/1464795731182?storageLocation=international/snomed_ct_international_edition_rf2_beta_release/2016-06-01T15:30:25</p> <p>assertionUuid: "2ddc9a28-150d-47a4-9b0e-7dbff2efdd72", assertionText: "There is a 1:1 relationship between the id and the key values in the ASSOCIATION REFSET snapshot file.", failureCount: 2, firstNInstances: [{ conceptId: 253589000, detail: "ReferencedComponent: id=253589000 and targetComponentId:204342004 contains multiple association refset member ids." } , { conceptId: 439575008, detail: "ReferencedComponent: id=439575008 and targetComponentId:402878003 contains multiple association refset member ids." }], RESOLUTION: Inactive components reset to active so that the existing component ids are preserved, and duplicates removed. RF1 records impacted: none RF2 records impacted: <ul style="list-style-type: none"> 2 records removed from the Association reference file. </p>	3	Internal (IHTSDO)	Beta feedback	2016-Jun-17
ISRS-41	RVF Assertion failure: 89ceaf00-79b9-11e1-b0c4-0800200c9a66	<p>After improving the scope of the RVF testing by adding new validation assertions, the following new failure was evident in the Beta release:</p> <p>assertionUuid: "89ceaf00-79b9-11e1-b0c4-0800200c9a66", assertionText: "All stated relationships inactivated in current release must have been active in the previous release.", failureCount: 67, firstNInstances: [{conceptId: 274765004, detail: "Stated relationship: id=6539696029 is inactive in the current release but no active state found in the previous snapshot."}] RESOLUTION: All 67 "born inactive" stated relationships have been deleted accordingly. RF1 records impacted: none RF2 records impacted: <ul style="list-style-type: none"> 67 records removed from the Stated Relationship file. </p>	3	Internal (IHTSDO)	Beta feedback	2016-Jun-17
ISRS-43	Spelling errors in a new FSN: Concept 718390004	<p>A spelling error was found in a synonym, then upon further investigation this turned out to also be an issue in the FSN. This meant that the priority increased, and so it was fixed in the July 2016 edition instead of in the next editing cycle for January 2017:</p>	2	Internal (IHTSDO)	Beta feedback	2016-Jun-17

Incorrect version:

Modified Wisconsin Card Scoring Test score (observable entity)
 Modified Wisconsin Card Scoring Test score
 MWCST (Modified Wisconsin Card Scoring Test) score

Correct version:

Modified Wisconsin Card Sorting Test score (observable entity)
 Modified Wisconsin Card Sorting Test score
 M-WCST (Modified Wisconsin Card Sorting Test) score

The duplicate concept (718902005) created since the content cut was taken for July 2016 was also deleted.

RESOLUTION: 1. New concept (719073006) created with the correct FSN. 2. Incorrect concept (719073006) deleted from the content accordingly.

RF1 records impacted:

- 1 additional record in the Concept file. 1 record removed from the Concept file.
- 3 additional records in the Description file. 3 records removed from the Description file.
- 3 additional records in the Subset Members file. 3 records removed from the Subset Members file.
- 1 additional record in the Relationship files. 1 record removed from the Relationship files.
- 4 additional records in the Component History file. 4 records removed from the Component History file.

RF2 records impacted:

- 1 additional record in the Concept file. 1 record removed from the Concept file.
- 3 additional records in the Description file. 3 records removed from the Description file.
- 6 additional records in the Language file. 6 records removed from the Language file.
- 1 additional record in the Relationship file. 1 record removed from the Relationship file. 7 records updated in the Relationship file.
- 1 additional record in the Stated Relationship file. 1 record removed from the Stated Relationship file.
- 2 additional records in the Simple Map file. 2 records removed from the Simple Map file.

ISRS-51 Concepts with no Preferred Terms

Six concepts have been found with no Preferred Terms:

10637751000119102
 137631000119107
 315058005
 363912006
 411728000
 63160006

RESOLUTION: These were resolved immediately in time for today's Member Release, by making the appropriate description the Preferred Term in each case.

RF1 records impacted:

- 5 additional records in the Component History file.
- 12 records updated in each of the Subset Members files.
- 24 records updated in the Description file.

RF2 records impacted:

- 12 additional records in the Language files.
- 16 records updated in the Language files.
