SNOMED International Community of Practice Inclusivity Statement

SNOMED International is committed to creating a diverse environment as it pursues the growth, development, and betterment of SNOMED CT.

Across the SNOMED CT Community, each of us contributes to inclusion and we all have a role to play. Our culture is the result of our behaviors, our personal commitment, our curiosity, how we collaborate, and the ways that we share our individual perspectives, and encourage others to do the same. Every member of the SNOMED CT Community is welcome to participate equitably in the work that we do, without limitation due to race, color, religion, gender, gender identity or expression, sexual orientation, national origin, genetics, disability, age, etc.

This commitment brings us together in ways that help us to collectively connect, belong, speak openly, make mistakes, learn and grow through our work here.

We invite everyone to contribute and discuss matters openly and regard this as a safe space to progress our thinking and learn from each other.
