

## Semantic Strategy in the European Union and SNOMED CT

---

*Presenter: Representative of the European Commission*

### **Audience**

Anyone interested in understanding European strategic activities in relations to SNOMED CT.

### **Abstract**

The eHealth Network of EU Member States called on the European Commission to play a more active role in assessing the value of SNOMED CT for eHealth deployments in Europe. Hear about the reasoning and thoughts behind a project the Commission has launched to investigate the role of SNOMED CT in cross-border semantic interoperability, and about the state of play of the transatlantic cooperation between the EU and the US in eHealth and Health information technologies.
