Title: SNOMED CT International Request Submission (SIRS) System

Presenter: Monica Harry and Maria Braithwaite, Senior Terminologists, IHTSDO

Audience

All those who are likely to submit change requests for the international release of SNOMED CT which may include representatives of National release centers, stakeholders and other interested parties.

Objectives

Intended to inform attendees about SIRS and the change request submission process including how to access and use the system and what to expect from the IHTSDO in response to a submission.

Abstract

The topics presented will include:

- A historical perspective – what is SIRS?
- The process for registration and log in.
- The submission process for both single and bulk requests.
- Live demonstration of the online SIRS system – how to navigate SIRS, how to search for requests, understanding the status of requests.
