Clinical Engagement

WEBLINK - www.snomed.org/clinical

This is the home page for all Clinical Engagement activities within Confluence. The site directs you to all resources you will need as a clinician to participate in the development of SNOMED CT, and also provides access to clinically focused educational materials.

Clinical Engagement Chat Room

The Clinical Engagement Chat Room aims to provide a simple way to engage with other clinicians on issues and to ask/answer queries.

The url for the chat room is https://public-snomedintl.slack.com/messages/CBFLM8V18/

Getting Started

Access to the SNOMED International Slack workspaces are by invitation only. Experience on other platforms has shown that it is easier to manage who has access this way.

If you do not have an account or access to the SNOMED International public workspace, please contact crg@snomed.org to request an account.

SNOMED CT - Exploring pathology challenges

As pathology moves towards an increasingly digitalised platform, and the use of SNOMED CT increases, there are a number of challenges that arise. These individual presentations help to start the conversation relating to these issues specifically. We hope that this will begin a broader conversation relating to the broader pathology implementation using SNOMED CT.

About Us

Clinical input into the development of SNOMED CT ensures that the terminology meets current and future clinical requirements. These activities form part of the broader approach of Clinical Engagement. Clinical engagement is currently supported by a dedicated team.

The team looks to support clinical engagement activities across all regions through discussion and collaboration with local-based clinical colleagues, and discussions with national release centres (NRCs).

Clinical Engagement strategy

SNOMED International Clinical Engagement strategy sets out the organisation's approach to engaging with clinicians and clinical groups. It provides a framework for engagement activities, and details how clinical input will be provided to ensure that SNOMED CT meets the requirement of clinicians, and remains clinically relevant in the changing face of healthcare.

VISION -
- To ensure that all activities of the SNOMED International are influenced by global clinical communities
- SNOMED International’s culture has a progressive and sustainable approach to engaging clinicians

SNOMED EXPO 2023 - Abstract deadline extended
Ian Green posted on Apr 16, 2023
Abstract submission deadline extended to May 2. What's better than attending an exciting conference? Being part of it! Submit an abstract for an oral presentation or an e-poster to see your name on the program at this year's SNOMED CT Expo. In addition to being an excellent professional development opportunity, you'll be a part of the ever-expanding SNOMED CT global community, which thrives when users share their knowledge and expertise. Check out snomedexpo.org

Early intervention in psychosis (EIP) pathway using SNOMED CT
Ian Green posted on Nov 21, 2022
In the UK, in response to the Mental Health Taskforce https://www.england.nhs.uk/mental-health/taskforce/, there was a drive to make sure people experiencing first-episode psychosis have timely

SNOMED International and the International Diet Dysphagia Standardisation Initiative join forces

Ian Green posted on Nov 21, 2022

SNOMED International and the International Diet Dysphagia Standardisation Initiative (IDDSI) have signed an agreement to incorporate IDDSI Framework v2.0 content into SNOMED CT to enable use in electronic health records globally. Peter Lam, IDDSI Chair, expressed that, "The agreement with SNOMED is another exciting and positive step to meeting IDDSI's goal of improving the safety of people of all ages, all cultures, and in all care settings, who are living with dysphagia."
