

SNOMED CT Implementation Showcase 2012

Program with links to Presentations or Abstracts

Keynote Presentations	
Evolution, survival, revolution and growth: An everyday story of terminology folk	Presentation
Improving the health care system with eHealth – the Swedish case	Presentation
Resources to Support Implementers	
Documentation and Resources to Support SNOMED CT Implementation	Presentation
Review of training and other related materials for the Implementation of SNOMED CT	Presentation
Practical Use Cases	
A UMLS and SNOMED CT-encoded differential diagnosis time-series knowledge base for self-administered patient interviews	Abstract
Implementation of SNOMED CT in Quality Measures	Presentation
Strategies to Improve Problem List Management within Clinical EHR Workflow	Presentation
European Projects	
epSOS make sense of Cross border Health care	Abstract
SNOMED CT mapping in the epSOS project	Abstract
Semantic Interoperability for Health Network (SemanticHealthNet)	Abstract
Clinical Specialties	
A SNOMED CT linked diagnosis coding scheme for European Renal Medicine	Presentation
SNOMED CT in Anatomic Pathology	Presentation
Laboratory Medicine	
Meeting terminology requirements for order entry and result reporting	Presentation
UK National Laboratory Medicine Catalogue	Presentation
Canadian Experience Supporting the Implementation of SNOMED CT for the Reporting of Microbiology Laboratory Result Values	Presentation
Browsers and Searching	
Searching SNOMED CT	Abstract
Terminology Explorer	Presentation
Terminology Services	
SNOMED CT and Common Terminology Services (CTS2)	Abstract
Our experience developing a terminology server	Presentation
Data Entry	
Using SNOMED CT to code free text in the clinical interface	Abstract
Freedom of Clinical Expression versus Record Standardization - Having Your Cake and Eating It	Presentation
EHR Design	
An integrated Expression Repository EHR system	Presentation
Terminology Binding	
The Logical Model Designer - Binding Information Models to Terminology	Presentation

Implementing post-coordinated SNOMED CT bindings using an interface terminology in clinical data capture forms	Presentation
Retrieval and Queries	
Semantic Query	Abstract
Leveraging SNOMED CT in Healthcare Analytics	Presentation
Decision Support	
Clinical Decision Support Using openEHR Archetypes and SNOMED CT	Presentation
Development of a SNOMED CT based, national, centralized medication decision support system	Presentation
Interoperability	
Planning for adoption of SNOMED CT in a Health Information Exchange	Presentation
Mapping to Classifications	
How the SNOMED CT to ICD-10 Map facilitated the map to a national extension of ICD-10	Presentation
Transitioning from an IHTSDO SNOMED CT to ICD-10 Mapping Project to the IHTSDO Mapping Service	Presentation
Progress report on the IHTSDO/Wonca Family/General Practice Refset and ICPC-2 mapping project	Presentation
Data Migration	
Mapping Legacy Terms to SNOMED CT - Challenges and Lessons Learned	Presentation
Mapping legacy termsets to SNOMED CT: Experiences and outcomes, tools and guidance	Abstract
Migrating post-coordinated SNOMED CT between systems: a case study converting a GE electronic health record to Epic	Presentation
Translation	
IHTSDO support for translation	Presentation
Content Development	
IHTSDO Content Development process - moving forwards	Presentation
Description Logic	
Semantic Annotations	Presentation
Negation, Disjunction and Union Set Enhancement for the IHTSDO Workbench	Abstract
Extension Management	
Using Snow Owl to Maintain Singapore's SNOMED CT Extension and Drug Dictionary	Presentation
Integrating SNOMED CT-AU and the Australian Medicines Terminology (AMT)	Presentation
Reference Sets	
Canadian Experience Developing Primary Care Reference Sets	Presentation
Education	
IHTSDO Quality Framework - sharing of practice across the community	Presentation
