Welcome to the Translations space!

Here you can find information about translations of IHTSDO products, including SNOMED CT and its derivatives and product support documentation.

The global dissemination of SNOMED CT® increases the need to provide the terminology in many different languages. SNOMED CT® has a built-in framework to manage different languages and dialects. Currently, entire or partial translations of SNOMED CT® are available in US English, UK English, UK Australian, Spanish, Danish, Dutch, Lithuanian, Swedish and Canadian French, translations in other SNOMED International Member countries and elsewhere are also in progress.
