

2019-03-26 Anesthesia CRG Meeting

Present

- [Andrew Marchant](#)
- [Patrick McCormick](#)
- [Martin Hurrell](#)
- [Andrew Norton](#)

Invitees

- [Steven Dain](#)
- [Arnold Berry](#)
- [Monica Harry](#)
- [Toni Morrison](#)
- [Monica Harry](#)
- [Steven Dain](#)
- [Maria Hendrickson](#)
- [Jorge Galvez](#)
- [Bruce Goldberg](#)
- [Karl Poterack](#)
- [Stuart Abbott](#)
- [Zac Whitewood-Moores](#)
- [Heidi Hughes](#)
- [Terri Monk](#)
- [Daniel Karlsson](#)
- [Suzanne Santamaria](#)
- [John Walsh](#)
- [Maurice McKinney](#)
- [Curtis Tinsley](#)
- [Anthony Madden](#)
- [Jane Millar](#)
- [David Truncer](#)

Conference Call Details

Meeting time is 2019-03-26 19:00 UK; 15:00 US ET (1900 UTC)

Starting with ZOOM

Join from PC, Mac, Linux, iOS or Android: <https://snomed.zoom.us/j/271763716>

Or Telephone:

US: +1 415 762 9988 (US Toll) or +1 646 568 7788 (US Toll)

UK: +44 (0) 20 3695 0088

Canada: +1 647 558 0588

Meeting ID: 271-763-716

More international numbers available: <https://zoom.us/jcYTPCEKj8>

Discussion items

Item	Description	Owner	Notes
1	Introductions and apologies	Andrew Norton	
	Minutes of previous meeting	Andrew Marchant	Minutes from 2019-01-22 Anesthesia CRG Meeting
	Matters arising from the minutes	Andrew Marchant	
	Administration of anesthesia hierarchy	Zac Whitewood-Moores	<p>From Zac Whitewood-Moores :</p> <p>"Consider the hierarchy under <<410770002 Administration of anesthesia for procedure (procedure) </p> <p>... They do not discriminate between general anaesthetic, sedation, spinal, regional and local anaesthetic.</p> <p>I believe that separating the anaesthetic from the procedure and recording both is really the only scalable way forward. I would be grateful if the Anaesthesia CRG could consider this area of content/requirement and make the appropriate request of SNOMED International</p> <p>... My suggestion is that this hierarchy is retired... a less palatable one would be that they are disambiguated and modelled with both procedures to ensure equivalence can be determined.</p> <p>Either way needs care to ensure that it does not appear that two surgical procedures have been undertaken in the clinical record."</p> <p>Reviewed with the group, and we generally agree that this hierarchy is overly post-coordinated. It appears to have historically been derived from the US CPT anesthesia codes (00xxx codes).</p>
	SNOMED updates	Andrew Norton	<p>Multiple terms cleared for release recently</p> <p>Morphine PF request pending clarification (Req #722226)</p>
	Planning for F2F meeting in London on April 10		See 2019-04-10 Anesthesia CRG Face-to-Face Meeting (London)

	Any other business	<p>Suggestion: procedure for high flow nasal cannula.</p> <p>Object exists: High flow oxygen nasal cannula (physical object) SCTID: 426854004</p> <p>Possible ancestor: Oxygen therapy (procedure) SCTID: 57485005</p> <p>Need to collect examples and parameters for what distinguishes HFOT from other kinds of oxygen therapy (humidified, 100% concentration.)</p>
	Next meeting	Face to Face in London, April 10 2019
