About Us

Clinical input into the development of SNOMED CT ensures that the terminology meets current and future clinical requirements. These activities form part of the broader approach of Clinical Engagement. Clinical engagement is currently supported by a dedicated team.

Although, each member of the Clinical Engagement team is located in a regional area, the Americas and Europe Middle East & Africa, the team looks to support clinical engagement activities across all regions through discussion and collaboration with local-based clinical colleagues.

Clinical Engagement strategy

SNOMED International Clinical Engagement strategy sets out the organisations approach to engaging with clinicians and clinical groups. It provides a framework for engagement activities, and details how clinical input will be provided to ensure that SNOMED CT meets the requirement of clinicians, and remains clinically relevant in the changing face of healthcare.

VISION -

Clinical Engagement Chat Room

The Clinical Engagement Chat Room aims to provide a simple way to engage with other clinicians on issues and to ask/answer queries.

The url for the chat room is <https://public-snomedintl.slack.com/messages/CBFLM8V18/>

Getting Started

- To ensure that all activities of the SNOMED International are influenced by global clinical communities
- SNOMED International's culture has a progressive and sustainable approach to engaging clinicians

Access to the SNOMED International Slack workspaces are by invitation only. Experience on other platforms has shown that it is easier to manage who has access this way.
