

Nutrition Care Process Terminology Clinical Project Group

Welcome to the Nutrition Care Process Terminology Clinical Project Group space

This project group has been established to undertake the following:

- Quality assurance of promoted NCPT related terms from US extension (685 concepts) (completed)
- Review and confirm remaining NCPT content for addition to the SNOMED CT International release (approx. 1000 concepts) (completed)
- Prepare and model 100 concepts for initial pilot for addition to the SNOMED CT International Release (in progress)
- Review the outcomes of the initial pilot to inform next steps (in progress)
- Model and submit the remaining content for addition to the SNOMED CT International Release (approx. 1000 concepts remaining of 2000) (in progress)
- Agree on updating process and maintenance plans, in line with NCPT developments

Project times scales:

- To be confirmed based on a detailed project plan agreed with SNOMED international
- **SCROLL well below this point to view the 2020 WORK PLAN**

Leading healthcare terminology, worldwide

 Meeting Schedule

There will be a regular call on the 3rd Monday of each month at 19:00 UTC or 2 pm CST (Chicago time).

Conference call details are the same each call.

NOTE NEW ZOOM LINK! The link to join is always:
<https://snomed.zoom.us/my/nutritioncrg?pwd=THJmd2JabGN1UWlXM1N5VkpqaFUwdz09>

The link also includes a password should you need it.

Next mtg is on Monday June 15th 2020

Please note there will not be a meeting in August 2020.

Add Time Zone, City or Town + Mar 16, 2020

CDT/CST 2:00 pm
Central Daylight Time GMT -5 Mon, Mar 16

UTC 7:00 pm
Universal Time Coordinated GMT +0 Mon, Mar 16

CST automatically adjusted to CDT time zone, that is in use

Project scope

2020 NCPT terminology for international usage to be included in SNOMED CT International Release

2020 NCPT CPG Work Plan

Describes the aims and objectives of the Nutrition Care Process Terminology Clinical Project Group.

Overall objectives

The main purpose of the Nutrition Care Process Terminology Clinical Project Group in 2020 is to

Submit and model 2020 NCPT content for addition to the SNOMED CT International release (approx. 1000 concepts remaining of about 2000)

Prepare and model remaining 40 (of 89 concepts) for modeling pilot for addition to the SNOMED CT International Release

Review the outcomes of modeling pilot to provide feedback/learnings and inform next steps

Agree on updating process and maintenance plans, in line with NCPT developments

Meetings

Teleconferences

Teleconferences are held monthly (no August 2020 meeting), every third Monday of the month (announcement on Confluence)

Face-to-Face meetings

None planned during the year.

2020 Activities

	Activity	Scope	Deliverables	Timeframe (suggested)	Lead	Status
1	NCPT Modeling Pilot	Modeling and submission of about 100 NCPT concepts to SNOMED International (concepts based on four use cases: <ul style="list-style-type: none"> • Gestational diabetes mellitus • Overweight/obesity • Gastrointestinal cancer • Heart failure) 	About 89 concepts modeled and submitted to SNOMED CT	Provision of input on the topic/s within set timeframes as agreed by the NCPT CPG and relevant SNOMED International staff member/s.	NCPT CPG chair together with relevant SNOMED International staff member for item being discussed.	In progress 49 of 89 concepts (55%) modeled and submitted
2	2020 NCPT modelling and submission to SNOMED CT	The editorial decisions made by the NCPT CPG as identified by minutes of the NCPT CPG.	Items will be raised as relevant over the course of the year. For each item raised the deliverable will be input and/or feedback as required within mutually agreed timeframes.	Provision of input on the topic/s within set timeframes as agreed by the NCPT CPG.	NCPT CPG chair together with relevant SNOMED International staff member for item being discussed.	In progress Appr. 1000 concepts of 2000 (about 50%), as of May 2020

Communication

- The NCPT CPG will engage in two-way communication between the SNOMED International Content Team and NCPT CPG members on areas relevant to SNOMED CT content development.
- The primary routes for communications will be the NCPT CPG Confluence Space and zoom Meetings.

- Communications to the NCPT CPG will by default, be publicly accessible on the NCPT CPG Confluence Space.

Criteria for measuring success

The key criteria for success of the NCPT CPG in 2020 will be related to the timely modelling and submission of 2020 NCPT concepts to support the revision and updating of nutrition content of SNOMED International. The measures of success will relate to the progress of the deliverables as set out in the 2020 activities section above.
