Validation report assertion changes since last scheduled release

All platforms

No changes.

International only

No changes.

Managed Service only

No changes.

Additional Notes

This is a scheduled maintenance release for the International Authoring Platform, running on the Snowstorm terminology server. This release restores template based authoring and batch authoring support which were temporarily unavailable since migrating to the Snowstorm Terminology Platform with full axiom support (AP Version 6.0.0).

Module versions in this deployment
