Welcome to the SNOMED CT Languages Project Group Space

This Space is where members of the SNOMED CT Languages Project Group (SLPG) share information about the development of computable languages designed to support SNOMED CT use cases.

Chair: Linda Bird
Members: Group Members

Purpose: To design, develop and review a set of SNOMED CT computable languages to support selected SNOMED CT use cases.

Scope: The SNOMED CT computable languages, including SNOMED CT Compositional Grammar (SCG), SNOMED CT Expression Constraint Language (ECL), the SNOMED CT Template Syntax (STS) and the SNOMED CT URI Standard. In particular, this project group focuses on syntax extensions and guidance to support the computable languages.

Deliverables:
- SNOMED CT Compositional Grammar (Status: v2.4 published)
- SNOMED CT Expression Constraint Language (Status: v2.1 published)
- SNOMED CT Template Syntax (Status: v1.1.1 published)
- SNOMED CT Expression Template Language (Status: v1.1.1 published)

- SNOMED CT Compositional Grammar
- SNOMED CT Expression Constraint Language
