

Clinical Engagement webinars and face-to-face meetings

The Clinical Engagement team would like to welcome all clinicians who are involved or interested in SNOMED CT, to attend the first in an ongoing series of meetings. The meetings will be held quarterly, with two meetings as webinars, and two meetings face to face in the scheduled SNOMED International Business meetings.

The first webinar will be held on **Wednesday, 29th, January 2020 at 20:00 UTC**. The meeting will last for two hours, and provide an overview of current clinical workgroup activity, and overview of clinical education developments. There will be time allocated for questions and discussions. In addition, the session will be recorded and made available to interested parties who are unable to attend.

The first face-to-face meeting will be held in London, at the SNOMED International Business meetings, on **Wednesday, 8th, April 2020**. The meeting will be a full day session. We are currently developing the agenda, and would welcome suggestions on agenda topics and discussion items. Please email your suggestions to igr@snomed.org

Details of the meeting and agenda will be published on this Clinical Engagement Confluence site closer to the time.
