

NEW March 2020 SNOMED CT International Edition Interim Release: Up to date COVID-19 content now available

SNOMED International maintains and quality assures SNOMED CT on an ongoing basis, issuing releases of its International Edition at the end of January and July each year.

In cases where a global emergency persists and warrants action, for example SARS in 2013 and the current COVID-19 situation, SNOMED International has taken steps to issue an interim release of the SNOMED CT International Edition to serve a public good. With this release, clinicians, researchers and administrators globally are able to code, analyze and plan to address the Coronavirus effort with the most up to date terminology.

The March 2020 interim release contains relevant COVID-19 concepts including any applicable changes to descriptions. With this interim release, 24 records have been added, plus core concept descriptions added back in referencing March 2020.
