Discussion items

Item	Description	Owner	Notes	Action
0	Reminder to record call			
1	Welcome and role call	Bruce Goldberg	Welcome and roll call	

2	Implementation Guide for Use of SNOMED CT in Documentation of Allergy, Non-allergic Hypersensitivity and Intolerance	Bruce Goldberg	- Implementation Guide for Use of SNOMED CT in Documentation of Allergy, Non-allergic Hypersensitivity and Intolerance - created in 2016 by implementation SIG - There is renewed interest in making this document publicly available - Needs review by this group and possibly update of content	Allergy Guide 20160112.docx AllergyIntolerance Binding -v15-20200409_233911.docx
3	Changes to substance and product groupers to support allergy and adverse reactions	Farzaneh Ashrafi Toni Morrison Bruce Goldberg Yongsheng Gao	- Includes the attached commentary regarding anesthetic agents requested from this group as well as a proposed hierarchy of contrast media agents - The majority of the concepts related to "Allergy to role grouper" and "Allergy to structure + role grouper" have been inactivated for the July 2020 release in consultation with the Allergies CRG. The remaining concepts in the two categories noted above (~10) are planned to be modelled with "product representing role" and "product representing role + structure". There are two dependencies in making this change: - EAG/MAG decision on how these concepts need to be classified--specifically where there is an intersection between substance and products (Yong's presentation will elaborate on this topic) - Identifying the required sub-groups for a couple of role groupers, namely "Anesthetic" and "Contrast media" (Lists of proposed groupers have been submitted)	373266007 Anesthetic (substance) identify.docx Contrast media.docx
3	Modeling of Allergy/Adverse reaction to substances /products	Yongsheng Gao	Proposed models presented to EAG and MAG for modeling allergy to products including combination medications and vaccines	Allergy Adverse reaction to substances products v2.pptx
6	Allergy to animals	Yongsheng Gao	Proposed model for representing allergy to animals and animal-derived substances	
8	Adjourn	Bruce Goldberg , All	AOB	- Next call TBD https://snomed.zoom.us/j/934143312 Meeting ID: 934-143-312
