

# July 2020 Implementation Course - Enrolments Closing Soon

Enrolments for the next **SNOMED CT Implementation Course**, starting on **Monday 6th July 2020**, will be closing soon - on Friday 26th June 2020.

*The SNOMED CT Implementation Course teaches you the SNOMED CT knowledge and skills required to implement a SNOMED CT enabled system. Key skills you will learn and practice include:*

- Using SNOMED CT in information models
- Querying SNOMED CT with expression constraints
- Creating SNOMED CT subsets using best practice principles
- Understanding the description logic foundation of SNOMED CT
- Documenting SNOMED CT requirements for clinical system procurements
- Adopting recommended principles for searching, entering, storing, mapping and maintaining SNOMED CT

The course fee is \$US 500 for students from high-income Member countries and \$US 250 for students from middle-income Member countries (note: this includes a 50% Member discount).

To enrol please visit the [Implementation Course enrolment page](#) in the [SNOMED CT Course Catalogue](#). If you have any questions, please email the E-Learning team at [elearning@snomed.org](mailto:elearning@snomed.org).
