

Nursing CRG responses to "at risk" concepts for clarification

Greetings!

Please use the link below to access our Nursing CRG document. There we will gather our comments and clarifications for review and discussion on the next Nursing CRG call December 13th at 2000 UTC.

Instructions:

1. The first book "requested action" gives information on the type of clarifications SNOMED International is requesting.
2. The second book "NCRG feedback" is the list of the concepts and information provided by SNOMED International in columns A-C. These columns are not to be changed or moved. Columns D-J are where your individual Feedback will be entered.
3. Feel free to rename and add more feedback columns. For example Feedback 1 can be your own name, organization, or country.

[Nursing CRG "at risk" gathered responses.](#)

We look forward to our next call!

Christine and Erica
