Additional Notes

This is a maintenance release focusing on defect/regression fixes, stability and performance. Two low risk but useful improvements are included - the addition of tooltips on drag handles in the edit panel, and the removal of the feedback column in the All Projects and My Projects views (feedback status is only needed at the task level).

Module versions

Front-end Version 1.0.101

Back-end Version 4.5.42

Orchestration Service Version 1.21

TS Browser Version 0.15
