Additional Notes

This is a maintenance release focusing on defect/regression fixes, stability and performance. Improvements related to server performance, content service support and concept inactivation reason modification are included, together with low-risk styling and presentation updates. The release includes an update to the TS Browser to display relationship IDs.

Module versions

Front-end Version 1.0.108

Back-end Version 4.5.43

Orchestration Service Version 1.21

TS Browser Version 0.17
