Additional Notes

This is a hotfix release for the above Priority 1 updates only, required for CRS integration support. The updates are improvements and bug fixes related to creation of SCA tasks from CRS requests. For full details on CRS/SCA integration (which include the capability to import concepts with externally defined SCTIDs), please see the CRS User Guide.

The other features/improvements from SCA Version 1.4.2 will now be made available in subsequent releases following migration to the flat-indexing version of the Terminology Server for performance and stability improvements.
