

# Content Tracker prioritisation work

As noted on the Draft 2017 Work Plan we need to look at the progression of the prioritisation of the IHTSDO Content Tracker: [/projects/IHTSDO/summary/statistics](#) This will occur at a component level not an individual issue level. The initial focus will be gathering the Member priorities and then using that information and the Prioritisation Criteria to determine the priorities. Given the timeline this work needs to commence prior to the Christmas period and if possible an initial meeting will be set for next week.

Would those interested in supporting this work please email Cathy [cri@ihtsdo.org](mailto:cri@ihtsdo.org) by close of business Thursday 8th noting your interest and also whether you are able to meet on either Tuesday 13th or Thursday 15th at 2000UTC? For those who can't attend we will record the call and also provide you an email update. Sorry for the short timeframe here.

Kind regards,

Cathy
