

# Published, Beta Refsets

## Overview

Documents the published and beta refsets that are available for browsing by the public, without requiring access to editing credentials.

## Prerequisites

- n/a

## Tools

Published and Beta Refsets share the same format. Refset details can be displayed by selecting the refset on the left page panel and the refset details are displayed on the right panel of the page. Refset members for the selected refset are displayed under the list of refsets.

271860004	Abdominal mass (finding)	20150930	M
21522001	Abdominal pain (finding)	20150930	M
43478001	Abdominal tenderness (finding)	20150930	M

Concept Details

Parents

426948001 : Aneurysm of descending aorta (disorder)

448722002 : Abnormality of abdominal aorta (disorder)

Concept

233985008 Abdominal aortic aneurysm (disorder)

Descriptions

Abdominal aortic aneurysm (disorder) en FSN

Abdominal aortic aneurysm en PN

AAA - Abdominal aortic aneurysm en SY

Attributes

Finding 7832008 Abdominal aorta structure (body structure) site

Associated morphology 85659009 Aneurysm (morphologic abnormality)

Children (9)

426270006 : Aneurysm of suprarenal aorta (disorder)

408666009 : Dissection of abdominal aorta (disorder)

425771001 : Enlarging abdominal aortic aneurysm (disorder)

315295003 : Recurrent abdominal aortic aneurysm (disorder)

233984007 : Thoracoabdominal aortic aneurysm (disorder)

314186008 : Inflammatory abdominal aortic aneurysm (disorder)

195268001 : Leaking abdominal aortic aneurysm (disorder)

14336007 : Ruptured abdominal aortic aneurysm (disorder)

444569004 : Aneurysm of infrarenal abdominal aorta (disorder)

## Features for public users

- Paging and searching of refsets and refset members
- Latest/All - Latest displays only the most recent release of the refset. All displays all releases of the refset.
- Feedback action - Allows viewer to submit a refset related comment to a recipient at a given email address.
- Download release
- Download refset members
- Sort refset members by type
- Filter refset members to display those with notes
- Display concept details and context hierarchy for a selected refset member
- Navigate concept hierarchy on Concept Details pane
