- [Specialist Training Video 006](#)

Script

Following is a script for the attached video.

Preamble: Welcome to the IHTSDO map tool video tutorials. This specialist training video covers the recently edited widget.

- Open a browser and direct it to the landing page for the application
- Log in as a specialist user (nin)
 - RESULT: the glass pane comes up for a bit and takes the user to the main dashboard for nin
- Scroll down to the Recently Edited widget
- Click Search without entering any search terms - this will display all recently edited results
 - RESULT: 10 concepts will be displayed in reverse chronological order
- Click on the Older button to continue to display concepts paging back in time
- Click on the '+' link to expand a concept
 - RESULT: The map record will be displayed
- Click on the '-' link to collapse the concept
- Click on the concept id link to navigate to the Mapped Concept View.
- Click on the browser's back button to return to the Recently Edited widget.
- Perform a search to narrow result list. Enter 'cardiac' in the search field.
 - RESULT: list is narrowed to concept names with 'cardiac' in them
- Perform a search to narrow the result list further. Enter 'cardiac AND murmur' in the search field.
 - RESULT: list is narrowed to concept names with both 'cardiac' and 'murmur' in them
