Video

- [Admin Training 004 Video](#)

Script

Following is a script for the attached video.

- Preamble
 - Welcome to the IHTSDO map tool video tutorials. This administrator training video covers the record administration functionality.
- Open a browser and direct it to the landing page for the application
- Log in as a administrator user (map_adm)
 - RESULT: the glass pane comes up for a bit and takes the user to the main dashboard for map_adm
- Single Record Administration tab
- Enter in a map record id (e.g. 476202). Click 'Retrieve' button.
 - RESULT: map record is displayed with owner, last modified data, and workflow status
- Edit Workflow Status - change status from 'EDITING_IN_PROGRESS' to 'EDITING_DONE'
- Click 'Save' button. Click 'OK' at confirmation dialog.
 - RESULT: workflow status is updated on record - can check on specialist dashboard that record has moved from 'Editing' list to 'Finished' list
- Click 'Delete' button. Click 'Cancel' at confirmation dialog.
- Click 'Create QA Record' with same mapRecordId.
