November 2017 Beta (version 1) to November 2017 Beta (version 2) (PUBLISHED) traceability

Differences found in package Comparison	Number of RF2 records impacted	Related JIRA ticket (s)	Rationale
Zero changes as expected (only change was MCH promoted fix branch to release branch)			

May 2017 Production (PUBLISHED) to November 2017 Beta (version 1) traceability

Differences found in package Comparison	Number of RF2 records impacted	Related JIRA ticket(s)	Rationale
Association Reference files	1		1 new record, as expected?
Attribute Value files	185		185 new records, which is close to the expected number as SE confirmed 169 expected changes, which almost matches 186 expected changes due to inactivated language refset records
Concept files	84		83 new records, which is close to the expected number as SE confirmed 79 expected changes + 1 inactivated record
Description (EN) files	166		166 new records, which is close to the expected number as SE confirmed 169 expected changes
Description (SV) files	11186		11005 new records, which is close to the expected number as SE confirmed 10766 new translations in this cycle + 181 inactivated, which again is close enough for the Beta release, due to this potentially being taken away from the total number of new records, and thereby bringing us closer to the expected total number of changes.
Relationship files	305		273 new records, which is close to the expected number as SE confirmed 169 expected changes + 32 inactivated

Stated Relationship files	170		164 new records, which is close to the expected number as SE confirmed 169 expected changes + 6 inactivated
Language Refset (EN) files	166		166 new records, which is close to the expected number as SE confirmed 169 expected changes
Language Refset (SV) files	11191		11005 new records, which is close to the expected number as SE confirmed 10766 new translations in this cycle + 186 inactivated, which again is close enough for the Beta release, due to this potentially being taken away from the total number of new records, and thereby bringing us closer to the expected total number of changes.
