

2017-11-06 - OBSERVABLE Meeting

Date

2017-11-06 20.00 UTC (Note DST changes)

Zoom Details

<https://snomed.zoom.us/j/947264901>

Attendees

- [Michael Osborne](#)
- [Suzanne Santamaria](#)
- [Farzaneh Ashrafi](#)
- [David Sperzel](#)
- [Daniel Karlsson](#)
- [Penni Hernandez](#)
- [Xavier GANSEL](#)
- [James R. Campbell](#)

Apologies

- [Scott Campbell](#)

Objectives

- Clarify use of INHERES IN for process observables
- Resolve Likelihood observables

Meeting Files

File	Modified
------	----------

No files shared here yet.

Discussion items

Item	Description	Owner	Notes	Action	
1	Welcome & apologies	Daniel Karlsson			
2	Conflicts of interest	Daniel Karlsson	• None stated		
3	Previous minutes	Daniel Karlsson			
4	Generic Observables model	Daniel Karlsson	• Process observables and INHERES IN can be interpreted as a role chain: sct:INHERES IN bfo2:S-DEPENDS ON o bfo2:INHERES IN, i.e. there is some quality which the process depends on which inheres in some entity. E.g. "coagulation INHERES IN blood" means "there is a quality X which coagulation specifically depends on which inheres in blood". • Do we need to check already mapped LOINC rate observables?		
5	LOINC collaboration	Suzanne Santamaria Farzaneh Ashrafi +all	• LOINC issues • Discussion items posted on OIMP discussion board: ◦ Age ◦ Likelihood ◦ Slides with some input		
6	Next meeting	Daniel Karlsson	• Next meeting is 2017-11-20 20.00 UTC		
7	AOB	Daniel Karlsson
