

# SNOMED CT Description Logic Enhancements - Consultation

## Proposal to Enhance SNOMED CT's Logic Capabilities

SNOMED International is proposing enhancements to SNOMED CT's logic features, both to enable improvements to the quality and analytics capabilities of SNOMED CT and to increase productivity in concept authoring. SNOMED International requests that users of SNOMED CT read the Executive Summary provided below, followed by the briefing paper also listed.

Your feedback to the proposal would be greatly appreciated and will assist SNOMED International in making the provision of enhanced capabilities as seamless as possible for the majority of users.

SNOMED International will begin to respond to feedback received by 11 December 2017 on [this page on our confluence site](#) and continue until the end of this consultation exercise on 28th February 2018.

Please do pass this page on to any other parties you think would have an interest or be impacted by this proposal.
