July 2017 ICNP to SNOMED CT (Diagnoses) package Production release now available

Dear all,

The Production release of the July 2017 ICNP to SNOMED CT® (Diagnoses) package is now available from the MLDS distribution site. This package may be distributed to Affiliate Licensees and third parties at any time, within the relevant licensing restrictions. The Production release of the ICNP to SNOMED CT® (Diagnoses) package is dependent upon, and should therefore be consumed in the context of the July 2017 SNOMED CT® International Edition.

The release is distributed in a single zipped archive file:

   SnomedCT_ICNPDiagnosesRelease_PRODUCTION_20171130T120000Z.zip

All files are available from the "July 2017 v1.0 (Diagnoses)" version of the "International Classification of Nursing Practice (ICNP) to SNOMED CT package" project, to be found on the "IHTSDO Releases" page on MLDS, accessed here:

   https://mlds.ihtsdotools.org/#/ihtsdoReleases

The Release Notes ("doc_SnomedCT-ICNPDiagnoses-ReleaseNotes_Current-en-US_INT_20170731.pdf") can be downloaded as a distinct file from the same MLDS release repository, or accessed online here:

   ICNP to SNOMED CT (Diagnoses) Equivalency Table Release Notes - July 2017

If you have any questions about the release, or have difficulties downloading the files, please contact SNOMED International at support@snomed.org with "July 2017 ICNP to SNOMED CT (Diagnoses) package" in the subject line.

Kind regards,

Andrew Atkinson | Release Manager
