

SNOMED CT Refset Management & Translation Tool

For training videos, please go here - [SNOMED CT Refset Management & Translation Tool#Training](#)

Availability - LIVE

[Refset & Translation Tool](#)

Overview

This page documents resources, links, and other information to support the SNOMED CT Refset Management & Translation Tool.

- [Features](#)
- [Github Project](#) (on IHTSDO Git Labs site, requires login)
- [UAT Deployment Site](#) - Click here to see [the Swagger API](#)
 - [UAT Deploy Instructions](#)
 - Terminology Server Integration: <https://sct-rest.ihtsdotools.org/api/snomed>
 - Identity Management Integration: <https://ims.ihtsdotools.org>
 - Component Identifier Service Integration: <https://uat-cis.ihtsdotools.org/api>
 - (Auto) Translation Integration: Google Translate
 - PATCH LEVEL: 20170110
- [PROD Deployment Site](#) - Click here to see [the Swagger API](#)
 - [PROD Deploy Instructions](#)
 - Terminology Server Integration: <https://sct-rest.ihtsdotools.org/api/snomed>
 - Identity Management Integration: <https://ims.ihtsdotools.org>
 - Component Identifier Service Integration: <https://cis.ihtsdotools.org/api>
 - (Auto) Translation Integration: Google Translate
 - PATCH LEVEL: 20170110

Admin Documentation

- [Prerequisites and Software Dependencies](#)
- [Building and Deploying in Eclipse](#)
- [Installing and Configuring Nginx Gateway](#)
- [Installing and Configuring Tomcat 7](#)
- [Admin Tools](#)
 - [AdHoc and Patch Data](#)
 - [Create Database](#) (also for updating database)
 - [Reindex Objects](#)
 - [Generate Sample Data](#)
 - [QA Database](#)
- [Creating and Configuring Refset and Translation Projects](#)
 - [Creating a New Project](#)
 - [Assigning Users to a Project](#)
- [User Management \(IMS\)](#)
 - [Authentication and Authorization](#)
 - [Creating an Admin User](#)
 - [Adding Users and Setting Project Roles](#)

Technical Documentation

High-level Documentation

- [System Architecture](#)
- [Persistence Framework](#)
- [Auditing and Revision History](#)
- [Logging](#)
- [Indexing](#)
- [Security, Users, and Roles](#)
- [Concurrency and Locking](#)
- [Error Handling](#)
- [Domain Model](#)
- [Extension Points](#)
- [Configuration Settings Overview](#)
- [Unit and Integration/Functional Testing](#)
- [Third-party Javascript Components](#)
- [IHTSDO Integration Points](#)
 - [IHTSDO Identity Management Service](#)
 - [IHTSDO Terminology Server](#)
 - "Editions" and "Languages" supported are cached, so if/when new editions and or language support is added to the Browser or IHTSDO terminology server, it would be appropriate to bounce the server.

- IHTSDO Component Identifier Service
 - Google Translate
- APIs and Services
 - Security Service
 - Project Service
 - Release Service
 - Refset Service
 - Translation Service
 - Workflow Service
 - Validation Service

Application Features

- Editing, Tracking, Workflow
 - Refset Workflow
 - Translation Workflow
- Identifier Assignment
- Release Process (including release properties, artifacts, etc)
- Migration

User Documentation

- Logging In
- Projects, Refsets, Translations
- Public User Features - Directory
 - Published, Beta Refsets
 - Published, Beta Translations
- Refset Features
 - Adding, Updating, and Removing Refsets
 - Local Set vs. Refset
 - Developing and Maintaining Intensional Refsets
 - Developing and Maintaining Extensional Refsets
 - Developing and Maintaining External Refsets
 - Importing and Exporting Refsets
 - Upgrading Refset to a New Version
 - Releasing a Refset
- Translation Features
 - Adding, Updating, and Removing Translations
 - Developing and Maintaining a Translation
 - Importing and Exporting Translations
 - Upgrading a Translation to a New Version
 - Releasing a Translation

Developer Documentation

- IHTSDO DevOps
 - Versioning "develop" and "master"

Training

Use this [Training Template](#) for the tour/videos pages.

- Refset Tool Tutorial - Login/Logout
- Refset Tool Tutorial - How to Make a Project
- Refset Tool Tutorial - How to Make an Extensional Refset
- Refset Tool Tutorial - How to Make an Intensional Refset
- Refset Tool Tutorial - How to Make a Translation
- Refset Tool Tutorial - Editing an Extensional Refset
- Refset Tool Tutorial - Editing an Intensional Refset
- Refset Tool Tutorial - Editing a Translation
- Refset Tool Tutorial - Refset Release Process
- Refset Tool Tutorial - Translation Release Process
- Refset Tool Tutorial - Migrating an Extensional Refset
- Refset Tool Tutorial - Migrating an Intensional Refset

Release Notes
