## **Automated Promotion of A Task**

## Automated promotion of a task to project

This process automatically invokes chained automation of the rebase-classify-promote process to simplify the process for tasks that don't need significant manual intervention (eg no merge conflicts, no duplicate results in classification) - if no action is needed then it will proceed to automatically promote the task to the project.

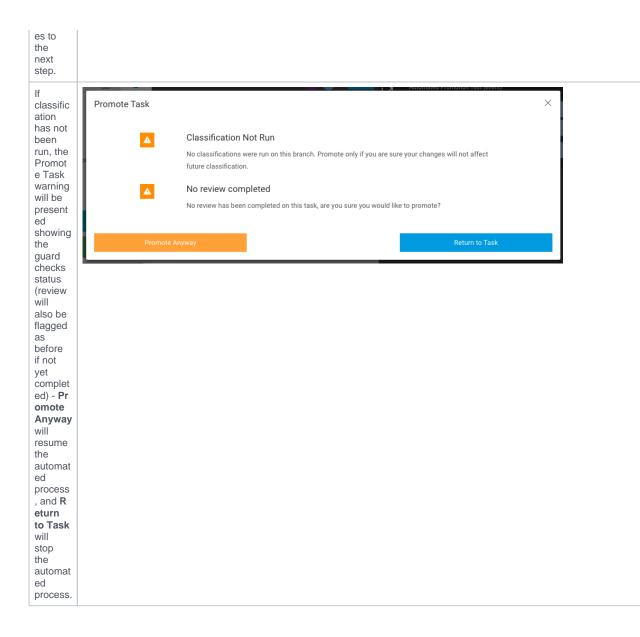

Steps	Reference								
If you are ready to promote a task, press the <b>Beg</b> in <b>Promot</b> ion <b>Autom</b> ation button i n the edit view Task Details informat ion panel.
