

Translation User Group meeting (5th, June 2018 at 14:00 UTC)

The user group will have its first tele-conference on the 5th June 2018 at 14:00 - 15:00 UTC. Feikje Hielkema from the Netherlands as kindly agreed to chair the group, and her assistance is greatly appreciated. The aim of the meeting is to agree ways of working for the group, and to explore how the group can assist in the review of the current SNOMED International Translation documents. All of the translation guidance documents were created back in 2012, and would now benefit from a review to ensure that they are up to date, and also to include the valuable experience gained by Member countries as they have begun to undertake translation activities at a local level.

We look forward to you joining the call,

Ian
