

Enhanced Membership Benefits

Dear E-Learning Advisory Group representatives,

Please be advised that, as part of the new 'Enhanced Membership Benefits' agreed by the General Assembly in October, each Member is entitled to the following education benefits:

- Access to free SNOMED CT Foundation Course for registrants from Member countries/territories
- NRC access to one free registration annually for each education course offered
- NRC access to one free certification process annually
- Membership discount for all education courses offered

If you are a Member representative from an NRC and would like to claim your free enrolment in one of our courses, please email elarning@snomed.org to request a 'Member free' voucher that can be used to register via our [Course Catalogue](#). Please include the name and email of the student who will be enrolling, and the course intake in which they would like to participate. This will assist us in assigning the voucher appropriately.

Thank you!
Kind regards,
Linda Bird.
