production release package

A final, formally endorsed SNOMED CT release package intended for live use in appropriately licensed operational systems.

Notes

- A *production release package* represents the authoritative release of the product. Implementers can use it in operational clinical systems.
- The *production release* status indicates that the releasing party (SNOMED International or the owner of the extension) commits to maintain the release history. Thus the historical audit trail is maintained through the product's lifetime.

Alternatives

- **Production package**
- **Production release**
