

stated view

A representation of [concept definitions](#) consisting only of assertions made or revised by [SNOMED CT authors](#).

Notes

- In contrast to the [inferred view](#), the *stated view* does not include inferences generated by applying a [description logic classifier](#).
- The *stated view* is represented by [axioms](#), that conform to the [OWL functional syntax](#). These [axioms](#) are distributed in the [OWL axiom reference set file](#)

Change Notice

- Prior to July 2018 the [stated view](#) of concept definitions were represented by relationships in the [stated relationship file](#). During a transitional period between July 2018 and July 2019 the OWL reference sets were introduced. Since the end of that transitional period in July 2019, the [stated relationship file](#) is no longer maintained or distributed. More information on the earlier representation of the stated view is provided in a historical note on [Representation of the Logical Model - Before July 2018](#).

Alternatives

- **Stated form**
