SNOMED CT International Edition

The set of SNOMED CT components and reference set members that either belong to a specific module identified by SNOMED International as the focus module for that *edition* or belong to one of the *modules* on which that module depends.

Notes

- The *International Edition* includes the foundational content of SNOMED CT on which all other SNOMED CT modules must have dependencies.
- SNOMED International currently identifies the | SNOMED CT core module (core metadata concept)| as the *focus module* for the *International Edition*. Only the | SNOMED CT model component module| is currently specified as a dependency.
- The *International Edition* may be supplemented by extensions, maintained and distributed by Members and Affiliates, to meet additional national, local, and organizational requirements.
