2019-03-26 Anesthesia CRG Meeting

Present

- Andrew Marchant
- Patrick McCormick
- Martin Hurrell
- Andrew Norton

Invitees

- Steven Dain
- user-d48df
- Monica Harry
- Toni Morrison
- Monica Harry
- Steven Dain
- Maria Hendrickson
- Jorge Galvez
- Bruce Goldberg
- user-b7840
- Stuart Abbott
- Zac Whitewood-Moores
- user-9fb53
- Terri Monk
- Daniel Karlsson
- Suzanne Santamaria
- John Walsh
- Maurice McKinney
- Curtis Tinsley
- Anthony Madden
- Jane Millar
- user-801ee

Conference Call Details

Meeting time is 2019-03-26 19:00 UK; 15:00 US ET (1900 UTC)

Starting with ZOOM

Join from PC, Mac, Linux, iOS or Android: **https://snomed.zoom.us/j/271763716**

Or Telephone:

US: +1 415 762 9988 (US Toll) or +1 646 568 7788 (US Toll)

UK: +44 (0) 20 3695 0088

Canada: +1 647 558 0588

Meeting ID: 271-763-716

More international numbers available: **https://zoom.us/u/cYTPCEKj8**

Discussion items

Item	Description	Owner	Notes
1	Introductions and apologies	Andrew Norton	
	Minutes of previous meeting	Andrew Marchant	Minutes from 2019-01-22 Anesthesia CRG Meeting
	Matters arising from the minutes	Andrew Marchant	
	Administration of anesthesia hierarchy	Zac Whitewood-Moores	From Zac Whitewood-Moores : "Consider the hierarchy under <<410770002 | Administration of anesthesia for procedure (procedure) | ... They do not discriminate between general anaesthetic, sedation, spinal, regional and local anaesthetic. I believe that separating the anaesthetic from the procedure and recording both is really the only scalable way forward. I would be grateful if the Anaesthesia CRG could consider this area of content/requirement and make the appropriate request of SNOMED International ... My suggestion is that this hierarchy is retired… a less palatable one would be that they are disambiguated and modelled with both procedures to ensure equivalence can be determined. Either way needs care to ensure that is does not appear that two surgical procedures have been undertaken in the clinical record." Reviewed with the group, and we generally agree that this hierarchy is overly post-coordinated. It appears to have historically been derived from the US CPT anesthesia codes (00xxx codes).
	SNOMED updates	Andrew Norton	Multiple terms cleared for release recently Morphine PF request pending clarification (Req #722226)
	Planning for F2F meeting in London on April 10		See 2019-04-10 Anesthesia CRG Face-to-Face Meeting (London)

	Any other business		Suggestion: procedure for high flow nasal cannula.
			Object exists: **High flow oxygen nasal cannula (physical object) SCTID: 426854004**
			Possible ancestor: **Oxygen therapy (procedure) SCTID: 57485005**
			Need to collect examples and parameters for what distinguishes HFOT from other kinds of oxygen therapy (humidified, 100% concentration.)
	Next meeting		Face to Face in London, April 10 2019
