

April ELAG Meeting - Notes and Attachments

Dear E-Learning Advisory Group,

A big thank you to all our ELAG representatives who participated in the discussions last week in London! It was great to hear from each Member about your education activities, plans and priorities, and we appreciated your comments and feedback about the education work being delivered by the fabulous SNOMED International education team.

I have added some notes to the meeting agenda, and attached the presentations and reports from the meeting - [2019-04-10 ELAG Face to Face Meeting \(London\)](#). If you have any further information on local CME/CPD requirements, education partnership opportunities, questions or comments please contact me at lbi@snomed.org.

Thank you!
Kind regards,
Linda.
