

MRCM Maintenance Tool - Release Notes

MRCM Maintenance Tool changes after Version 3.0.0 are included in the SCT Browser release notes rather than listed separately here (the MRCMMT is deployed as part of the SCT Browser application stack).

After MRCM Maintenance Tool Version 1.12.0 these release notes only track changes in the MRCM Maintenance Tool user interface features. Snowstorm terminology server changes are tracked in the [Authoring Platform release notes](#).

2023
